

HPC Appliance

We offer fully supported computer appliances with our high-performance software included, to integrate with your IT workflow. Our solution makes it possible to standardise office PCs and still offer high-performance solutions to both your employees and customers.

Applications are very diverse:

- Centralised office compute - running heavy simulations on a secure private office-cloud
- Products with high compute-need - focus on your product, leveraging our expertise
- Last, but not least: magic black boxes that solve everything.

Our advantages are:

- Appliances are tailored to your requirements.
- Units can be shipped from 1 to 10k units.
- Software is maintained, improved and coupled with a safe update procedure.
